Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 05/11/06 has been entered.

In the specification, page 10, line 26, Fig. 3d is referenced. There is no figure 3d. Correction is required.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, it is unclear what structure comprises "a work attraction section" and "a movement section". See the specification, page 12, lines 12-17 where moving unit 3 is listed as being in both the attraction section and movement section. This renders claim 1 unclear. It appears unit 3 should be deleted from one of these sections in the specification. Particularly, from the movement section. Clarification is required. Further the last two lines of claim 1 set forth a desired result but not the movement, i. e., vertical movement, to provide the result rendering the claim incomplete. Correction is required.

Regarding claim 3, the phrase "coming to the attraction position" in the last line renders the claim indefinite since the claim does not recite moving the work attraction section. It appears the claim should include the z motion of the attraction section to avoid being incomplete.

Regarding claim 5, the phrase "which arrived at" in line 5 renders the claim indefinite. This phrase was cancelled in the amendment filed 09/20/05 and appears to have been inadvertently reinstated. Clarification is required. It also appears "for", second occurrence, line 7, should be deleted, the comma changed to a semicolon and "making said" moved to the following line to define the last step in the method. Further this making step should include the necessary vertical movement in order to avoid being incomplete.

Regarding claim 7, this claim has the same defect in its last line as does claim 3 above.

Regarding claim 9, this claim should be correlated with the last two lines of claim 1.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donald Underwood whose telephone number is 571-272-6933. The examiner can normally be reached on Mon-Thursday 7:30-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eileen D. Lillis can be reached on 571-272-6928. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
